Pedagogical topics for deepening and defined work teams

(Current scientific justification (motivation) for working in the PerLen-Konzept)

Methods (Working in groups)
Lars Ela Gosia P. Christina

Reflection
Justina Katarzyna K. Katarzyna S. Gosia R. Mindaugas Ulla

Visualisation
Désirée Suse Markus Michael Jolita

Communication
Danius Simon Agnes Cecylia Lina

Digitalisation
Katarzyna D. Nils Pawel Rasa

Feedback-Culture
Iwonna Marie Izabela Claudia Silke

Work order
<p>Research in the literature in your language (or in English) what you find on your chosen topic:</p> <ul style="list-style-type: none"> - What influence does the topic have on your pedagogical work? - What new insights could you gain? - What role does this topic play in the PerLen-Konzept? - What influence/effect can the topic have on the pupils? <p>→ Put together what you find and prepare it so that you can share it with your group in Poland in December ("C6").</p> <p>The aim of this work is that we can convincingly (well-founded) present to other people (colleagues, parents, employers/trainers) why working in the PerLen-Konzept is purposeful and enriching for the students as well.</p> <p>Good luck! I am looking forward to the exchange!</p>
